RE: Geokinetics Modification  
ACT/047/002  
Uintah County, Utah

RECEIVED  
JUL 26 1983  
DIVISION OF  
OIL, GAS & MINING

Dear Tom:

Geokinetics accepts the conditions mentioned in your July 14, 1983, letter as the basis for final approval for the clearing and blasting of Retorts #1, #2 and #3.

A bond for the total amount of \$150,000 was posted with the Division of State Lands to cover all existing and proposed disturbances for the blasting of the three retorts. This bond has replaced the two existing bonds of \$5,000 and \$25,000. A bond confirmation was mailed to the Division on July 23, 1983, and a copy was sent to your office for your files.

This is an interim bond until such time as the commercial phase begins.

A map delineating all existing facilities and disturbances is attached.

A complete Mining and Reclamation Plan should be submitted to your office by the spring of 1984 unless unexpected delays occur in which case I will notify your office.

If funding of the Seep Ridge Project is not obtained by SFC, Geokinetics will consult with the Division before further development takes place.

As always, we appreciate your cooperation.

Sincerely,

*Catherine*
